

KinderPrep Supplemental Syllables Activity

Cut apart the picture and number cards. Lay the numbers on the floor in order. Show one of the picture cards and have your child slowly say the word while they jump on a number for each syllable. Have them look at the number and say how many syllables are in the word. For example, hold up the butterfly picture. Your child would jump to the number one while saying "but", then to number two saying "ter", and then to the number three while saying "fly". Finally, they would look at the number 3 that they are standing on and say that there are 3 syllables in the word butterfly.

		
		
		

Pictures: butterfly (3), box (1), popsicle (3), avocado (4), snowflake (2), calculator (4), lock (1), pineapple (3), popcorn (2), macaroni (4), rainbow (2), leaf (1), hamburger (3), motorcycle (4), balloons (2), strawberry (3), jellyfish (3), aquarium (4)
